The Fløibanen - A Highlight in Your Tour Programme

A trip on the Fløibanen funicular is a must for all tourists and visitors to Bergen. It is one of Norway's most famous tourist attractions, and the only cable car of its kind in Scandinavia.

The funicular runs every day throughout the year from early morning until late evening. There are many reasons to include a visit to panoramic Mount Fløyen and the Fløibanen funicular in your tour schedule:

- Mount Fløyen offers a breathtaking panoramic view of Bergen town and its capsulizing fjords. The spacious plateau, recently constructed on the edge of the mountain top, makes Fløyen the best place from where to explore Bergen.
- The beautiful scenery on the mountain top is perfect for short and long walks on marked paths. Wooden shelters and campfire facilities are located at various spots in the wood clearings and around the numerous lakes on Mount Fløyen. A useful map of the mountain top and the surrounding area is available at the ticket counter.

- Two funiculars, each with a capacity of 100 passengers, operate continuously. This brings on a waiting time reduced to a minimum, even during busy hours.
- The Fløibanen's lower station is just 150 metres from the Fish Market, Bergen's famous harbour and The Warf. The lower station area offers good facilities for tour coaches, and a car park is located nearby.
- A large and well-stocked souvenir shop is located by the upper station, open all year.
- Fløien Folkerestaurant at the top is an excellent choice for lunch or dinner, both for groups and individual travellers.
